C. READING COMPREHENSION.

CHILDREN'S PARTIES

Children's parties are getting very expensive in the UK today. Children love the presents, the cards and the party. The problem is... the money. It's like a competition for the children and the parents. The children want to invite ALL their friends to the party, not only one or two. They want a big cake not a small one, new clothes and wonderful games. The parents have to spend a lot of money on all these things. It is very popular today to have a special children's show at the party. This is fun and the children love it but it is also expensive. There is usually a lot of food and drink at the party for the children AND their parents. And the birthday child often gives presents to all his/her friends when they go home. A lot of money! Matt Kelsall and his wife are organising a party for their daughter, Katy. 'It's crazy,' says Mark. 'But all her friends have big, expensive parties and we have to organise a big party too! She's only three years old. What about when she's a teenager?!'

Are the sentences TRUE or FALSE?

1. Today on their birthday children spend time with their families.
2. At parties today there are lots of children and lots of parents.
3. Matt is organising a big party because all his daughter's friends have big parties.
4. Matt's daughter is a teenager.
