Benefits of the Internet

The Internet has increasingly developed and become part of our everyday life. It's useful in many ways.

Firstly, it is a source of information. It is a fast and convenient way to get the news. You can read electric newspapers. You can check weather condition before you go camping, fishing or go on a holiday. You can communicate with friends or relatives by means of email or chatting.

Secondly, the Internet is a source of entertainment. You can listen to music, watch movies and play video games. You can read the latest novels or poems.

Finally, the Internet is also useful in education. It is a means of education. You can learn a foreign language such as English, look up a dictionary. You can take a training or learning course.

In conclusion, the Internet brings us lots of benefits which make our life more modern and convenient. And it makes our world a small village.

Bài viết gợi ý 2

As we know, the Internet is, at present, becoming an important part of our everyday life. Almost of every aspect of life is concerned with the Internet, especially in developed countries.

People can use the Internet to do a lot of things. The Internet can be said a useful and effective instrument for daily activities.
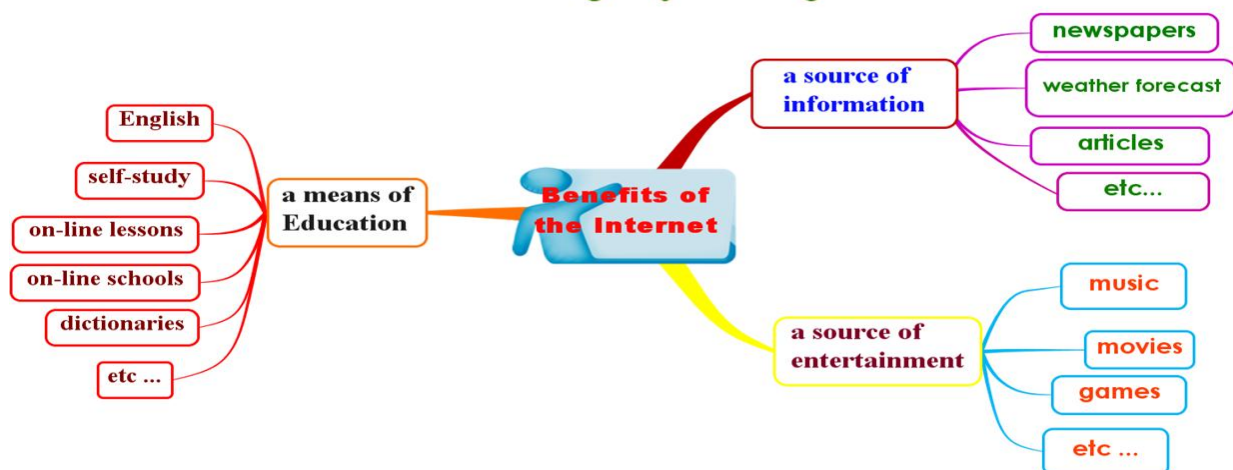

Firstly, Internet can be a source of information at home. People needn't go news stands to buy newspapers or magazines. They can get information about weather easily and at any time as well.

Secondly, Internet is a source of entertainment. People can see films, or listen to their favorite songs or even play interesting games on the Internet. And this doesn't cost as much.

In addition, the Internet is also a good means of education. Students and schoolchildren now can use the Internet as a useful and time-saving device by on-line schools or on-line lessons. Moreover, Internet can be said a wonderful means for people in their self-study.

In sum, the Internet, in our present time, plays an essential role in the development of society and man's knowledge and life.
