Our planet is a fantastic place, and it's essential to take care of it. There are simple things we can do to protect the environment. One of them is using both sides of the paper when drawing or writing. This way, we save trees and reduce the amount of paper we use. Another way to help is by picking up trash we see on the ground and throwing it in the proper bin. When we litter, it harms animals and plants. So, always remember to use the trash cans. Using water wisely is crucial too. We should turn off the tap tightly to stop dripping and not waste water. It's also a good idea to take shorter showers. Using energy is part of our daily life, but we can be mindful of how we do it. Turning off the lights when we leave a room and asking grown-ups to turn off appliances when they're not using them saves electricity and helps the planet. Lastly, let's remember that plants are essential for the environment. They give us fresh air to breathe. Planting flowers, trees, or even a small vegetable garden can make a big difference in keeping our Earth healthy. Remember, we all share this beautiful planet, and by taking care of it, we can make it an even better place for everyone!

23. Using less water when brushing your teeth is a way to help the environment.  
 24. It's okay to throw plastic bottles in the regular trash bin.  
 25. Turning off lights and electronics when you're not using them doesn't make a difference.  
 26. Planting flowers and trees is good for the environment.  
 27. The word "it" in line number 4 refers to:  
 A. environment      B. trees      C. lights      D. trash  
 28. Choose the best title for the text.  
 A. "Protecting Our Planet: Small Actions, Big Impact"  
 B. "Using Energy Wisely for a Greener Earth"  
 C. "The Importance of Trees and Plants in Our Environment"  
 D. "Ways to Keep Our Earth Clean and Beautiful"

**VI. Use the correct form of the word given in each sentence. (1.5 pts)**

### Listening Scripts

Daniel: Hi, Amy.

Amy: Hey, Daniel. Now, we need to think of advice about how to reduce pollution.

Daniel: OK. So, what should we do?

Amy: We should recycle trash so that we can reduce land pollution.

Daniel: Recycle trash, OK.

Amy: What else should we do?

Daniel: Well, we should help clean up rivers so we can reduce water pollution.

Amy: Clean up rivers, great idea! Anything else?

Daniel: Yes, we should ride our bikes to school so we can reduce air pollution.

Amy: Hmm... I disagree. We can't ride our bikes when it's snowy. I think we should take the bus to school.

Daniel: OK. What else should we do?

Amy: We should reuse plastic bottles so we can reduce land pollution.

Daniel: OK, reuse plastic bottles.

Amy: What else?

Daniel: I know! We should collect rain water, and we shouldn't throw trash into rivers.

Amy: Good idea! Anything else?

Daniel: We should save electricity, and we shouldn't waste water.

Amy: I think we have enough. Let's design our poster. Why don't we call it "Be clean and go green!"?

Daniel: I love it. Our poster will look great on the wall.
