My grandmother loves making bread and cakes, and is always surprised that the rest of my family never do any baking. So my parents decided they'd take me and my younger sister on a course, so that we could all find out how to make bread – and pizza, our favorite food! We booked our places and set off for Oakton farm in the countryside.

It was a very long drive, and when we arrived we went straight to bed. The next morning we got up early, fed the ducks on the lake and looked at the bull in the next field. Then we met our teacher, Michael, who seemed quite strict, and the other parents and children, who were really friendly. The cooking part was brilliant. Michael gave us long white coats to wear, which we all felt a bit silly in. Then we all made bread rolls, mixing flour and water with our hands. My sister kept complaining at first. Then even she started to enjoy it, and to concentrate on following the instructions. Dad made a lot of mess, I got flour on the floor and in my hair, and Mum didn't even get angry! I took ages to make my rolls, though.

We finally put our initials on the bottom of each roll, then made some pizzas and decorated them, which was fun. And we didn't even have to do the washing up! For something to do while the pizzas were cooking, we all went for a swim in the lake. It was fantastic. Then we went back inside and ate our pizzas. They were the best we'd ever tasted!

- C. I loved it, but my sister didn't really. She found it hard to do what the teacher told her

Our planet is a fantastic place, and it's essential to take care of it. There are simple things we can do to protect the environment. Another way to help is by picking up trash we see on the ground and throwing it in the proper bin. When we litter, **it** harms animals and plants. So, always remember to use the trash cans. Using water wisely is crucial too. We should turn off the tap tightly to stop dripping and not waste water. It's also a good idea to take shorter showers. Using energy is part of our daily life, but we can be mindful of how we do it. Turning off the lights when we leave a room and asking grown-ups to turn off appliances when they're not using them saves electricity and helps the planet. Lastly, let's remember that plants are essential for the environment. They give us fresh air to breathe. Planting flowers, trees, or even a small vegetable garden can make a big difference in keeping our Earth healthy. Some noise has a negative effect on people or nature. We call it noise pollution. Transportation and machines cause the most noise pollution.
