*Read the following passage. Decide if the statements from 29 to 32 are True or False and choose the correct answer (A, B, C or D) for the Questions 33 and 34.(1.5 pts)*

Our oceans are becoming extremely polluted. Most of this pollution comes from the land, which means it comes from people.

Firstly, there is raw sewage, which is pumped directly into the sea. Many countries, both developed and developing, are guilty of doing this.

Secondly, ships drop about 6 million tons of garbage into the sea each year.

Thirdly, there are oil spills from ships. A ship has an accident and oil leaks from the vessel. This not only pollutes the water, but it also kills marine life. Next, there are waste materials from factories. Without proper regulations, factory owners let the waste run directly into the rivers, which then leads to the sea. And finally, oil is washed from the land. This can be the result of carelessness or a deliberate dumping of waste.

**A. Choose true or false**

29. Our oceans are becoming very polluted.
