THEME 8: ENERGY- LESSON 4 (cont)

I. Reading

A. Đọc đoạn văn sau và điền vào chỗ trống:

Reading a. Read the article and fill in the blanks.

Headline: _____ ?

Jane Barber, November 9 LED save replaced green energy

A school in Ho Chi Minh City is showing others how to be "green".
A new primary school became Vietnam's first (1) green school in 2015. It uses renewable energy sources to save power. The school (2) _____ old lights with (3) _____ lights. They also use solar panels to give the school enough electricity for TVs and lights. Students drink rainwater which has been collected and cleaned. They also save (4) _____ by turning off the lights after class. Now, the city wants to open more green schools like this to help (5) _____ energy.

Solar panels on a roof

Keys:

2. replace

3. Led

4. energy

5. save

B. Đọc lại đoạn văn lần nữa và chọn tiêu đề hay nhất

b. Read the article again and choose the best headline.

1. Saving Water

2. Solar Panels

3. Vietnam's First Green School

Keys: 3 Vietnam's First Green School

Exercises:

1. Read the following text. Decide if the statements are True or False:

Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of Technology, we have to start conserving coal, oil and gas before it is too late; and nuclear power is the only alternative.

1. Natural resources will never run out.
2. We know exactly how much fuel is left.
3. We shouldn't waste natural resources.
4. According to Professor Marvin Burnham, solar energy will be used as a substitute for natural resources.

Keys:

1. True
2. False
3. False
4. False

2. Choose the word (A, B, C or D) that best fits the blank space in the following passage.

People are (1)..... many sources of non-renewable energy these days. Oil and coal (2).....cheap to use and easy to find (3)..... they cause pollution. Nuclear power is clean but can (4)..... dangerous. Natural gas (5)..... much pollution and (6).....lots of jobs but it's difficult to get. There are many different kinds of non-renewable energy that people can choose to use.
