#### **III. Read the following passage. Decide if the statements from 1 to 4 are True or False and choose the correct answer (A, B, C or D) for the questions 5 and 6.**

On June 16th, 1963, Valentina Tereshkova, a Russian astronaut, became the first woman to explore outer space, but she only stayed there for three days.

Nowadays, astronauts stay longer on space stations. How do astronauts live and work in space for months when they always float?

When they work outside the space station, they have to wear spacesuits. However, when they are inside, astronauts wear clothes like we do on Earth. Doing exercise in space is different, too. It is easier to lift heavy things because there is no gravity. That means they have to use special exercise equipment.

Life in space is really different from life on Earth.

1. Valentina Tereshkova became the first Russian female astronaut going into space. \_\_\_\_\_
2. Astronauts cannot stay longer on space stations nowadays. \_\_\_\_\_
3. Astronauts have to wear spacesuits when they work inside the space station. \_\_\_\_\_
4. Life on Earth is not the same as life in space. \_\_\_\_\_
5. Valentina Tereshkova was in space from June 16th, 1963 to \_\_\_\_\_.  
A. June 17th, 1963    B. June 18th, 1963    C. June 19th, 1963    D. June 20th, 1963
6. It is \_\_\_\_\_ to lift heavy things because there is no gravity  
A. easy                      B. easier                      C. hard                      D. difficult

## TEST-UNIT 9

### **I. Find the word whose underlined part differs from the other three in pronunciation.**

1. A. sleeping bagss                      B. printers                      C. moons                      D. astronauts
2. A. eco-friendly                      B. sky                      C. gravity                      D. megacity

### **II. Find the word that differs from the other three in the position of primary stress.**

3. A. printer                      B. robot                      C. device                      D. spacesuit
4. A. equipment                      B. gravity                      C. video                      D. station

8. How \_\_\_\_ **might** \_\_\_\_ homes \_\_\_\_ **change** \_\_\_\_ in the future?

**V. Read the following passage. Decide if the statements from 1 to 4 are True or False and choose the correct answer (A, B, C or D) for the questions 5 and 6.**

### HOMES IN THE FUTURE

In the future, technology will allow homes to be 'smart'. There won't be any housework to do because everyone might have robot helpers to clean the house and cook the meals. Automatic fridges will tell you what food to buy. Alarm clocks will read your daily schedule and know what time you need to get up. Robots will go shopping, look after the children or drive you to work. Robots will be able to show feelings with their faces, too. They might smile, make eye contact or speak to you. And computers might even think like humans. In the future, we might not need to tell computers what to do because they might decide for themselves. Moreover, space tourism will be a popular type of holiday in the future. People will go on holiday to the moon or to other planets. I think that will be a really exciting life.

#### A. True or False

1. Thanks to robot helpers, we don't have to do household chores. **true**
2. We will go shopping when the refrigerator tells us to go. **false**
3. Computers might be able to make their own decisions. **true**
4. Few people will have holidays on the moon or other planets. **false**

#### B. Multiple choice

5. What will be a popular type of holiday in the future?
