| 6. A- off       | B- down       | C- in      | D- without   |

#### VI/- Read the passage, and then write TRUE (T) or FALSE (F) for the following sentences:

There is too much carbon dioxide (CO<sub>2</sub>) in the air. When oil, gas and coal burn, they create large amounts of carbon dioxide. We sent five billion tons of carbon dioxide into the atmosphere every year. This amount will double in fifty years. This carbon dioxide lets sunlight enter the Earth's atmosphere and heat the Earth. However, it does not let as much heat leave at the atmosphere and enter space. It is like a blanket. The heat can pass from the sun through the blanket to warm the Earth. The heat stays there and cannot escape through the blanket again. Scientists call this the greenhouse effect.

1. When we burn oil, gas or coal, they give out carbon dioxide. ....
2. Every year about five million tons of carbon dioxide is sent into the atmosphere. ....
3. This carbon dioxide heats the Earth. ....
4. The Earth is like a blanket. ....
