HEALTHY EATING

Do you want to be healthy? Perhaps you need to go on diet. Start the day by drinking a glass of water orange juice... but no coffee or tea, and no milk or sugar, please!

For lunch, don't eat any fried foods... French fries, or burgers, for example... Some grilled fish, perhaps with some green vegetables, is really good for you!

Don't eat any desserts which contain cream, butter or chocolate! If you're still hungry, eat some fruit or some nuts – they're really healthy! And to drink... just water! It hasn't got any calories so you can drink as much as you want.

For dinner, have some soup and bread. (ut remember – no butter). It's simple... but delicious.
