V. READING COMPREHENSION (1.5 pts)

A. Reading plays an important role in our lives. Not only is it the fastest way to reach for new information and new knowledge, but it is also useful in building maturity and widening awareness of contemporary issues. Besides, reading gave human the ability to think deeply and seek for changes, which is especially important for people in Malaysia which has the vision of becoming an advanced country in 2020. However, despite being one of the countries in South-East Asia with the highest literacy rate (93.2%), Malaysia is still far behind developed countries like Japan, United States and Britain, which have a literacy rate of 99%.

Malaysia is suffering a poor reading culture among the citizens. It was found that Malaysians are only keen on reading books that are related to their work field or of light genre. They opined that reading things that are not to their interest is a waste of time and will not contribute to self-development, in which such mindset had prevented them from reading to expand knowledge. Also, most Malaysians were not **inculcated** to read since they were young, and they are less willing to spend money to buy quality books.

Past experience:

Singapore also hosted a historic meeting between Chinese President Xi Jinping and then-Taiwan President Ma Ying-jeou in November 2015. That meeting — the first between the leaders of the governments in Beijing and Taipei since the civil war ended seven decades earlier — was arranged secretly.

Diplomatic ties:

Singapore is a large trading partner with the U.S., the second-largest Asian investor, and a longtime supporter of its military presence in the Asia-Pacific region. It is also the regional headquarters of large U.S. companies including Google, Facebook and Airbnb.

Singapore is one of about four dozen countries in the world where North Korea has an embassy. North Korea's state-owned companies have, in the past, conducted legal and illegal business dealings with Singapore businesses. The city-state officially cut off trade relations with North Korea in 2017 to obey international **sanctions**.

Levi Strauss, a young immigrant from Germany, arrived in San Francisco in 1850. California was in the middle of the Gold Rush. Thousands of men were coming to California to dig for gold. And Strauss came to sell canvas to these gold miners. Canvas is a heavy fabric. So Strauss thought the miners could use the canvas for tents.

One day Strauss heard a miner complain that he couldn't find clothes strong enough for the work he was doing. Strauss got an idea. He quickly took some of his canvas and made it into pants. These pants were what the miners needed. In one day Strauss sold all the pants he had made.

Strauss wanted to improve his pants. He wanted to make them even better. He bought a fabric that was softer than canvas but just as strong. This fabric came from Nimes, a city in France, and was called *serge de Nimes*. The miners like this fabric. They called it “denim” from (de Nimes) and bought even more pants from Strauss.

I am going to take a lot of pictures about my village and film the country life. They must be very useful for my master thesis.
