Reading

9 Read the text and put the sentences in the right place. There's one sentence you do not need to use.

- 1 Helmets are the most common protective gear.
- 2 A light jog is a good way to warm up, and it only takes a few minutes.
- 3 If you respect your fellow players, fewer injuries will happen.
- 4 This is not something to worry about.
- 5 First of all, you should use protective gear.

Playing Safe

Have you ever sprained your wrist or twisted your ankle while playing a sport? Well, every teenager has suffered some type of sports injury at one time or another. **A** There are ways to protect yourself.

B Helmets, knee pads, gloves, and boots can all protect your body parts from getting injured while you're playing football, hockey, and baseball, just to name a few!

Secondly, be sure to warm up well before practice and games. Warming-up helps the blood flow to the working muscles, making them more flexible and reducing the risk of strain and pulled muscles. **C**

Know the rules of the game and follow them. For example, in soccer you can't come from behind, crash into a player's legs, and steal the ball. **D**

Finally, don't play when you're injured. You definitely want to get right back in the game, but if your injury hasn't healed completely, it might lead to something worse.

- A The Yanomami's traditional way of life has changed over the years.
- B They have lived there for thousands of years.
- C The men wear belts.
- D All the villages gather to perform war dances.
- E These houses are called *shabonos*.

The Yanomami Indians live in the northwest Amazon Rainforest and southern Orinoco, in the area between Brazil and Venezuela. **1**

The Yanomami people decorate their bodies with feathers and flowers. **2** Each belt is different from all the others. They speak local languages such as Yanomamö and Sanima and they live in villages. Each village is a round, wooden house which has a big open yard in the middle. **3** Each family has its own area within the *shabono*.

The Yanomami depend on the forest to live. They fish a lot. They grow bananas, gather fruit, and hunt animals. They are friendly with their neighbors, and invite other people from nearby villages over when they celebrate. During the celebration, they eat a lot and the women dance and sing late into the night.

4 There are several reasons for this, but the most important is the serious harm that people have done to the rainforest.

Home Safety

In the United States there's a burglary almost every 15 seconds. There are a lot of things you can do to protect your house from burglars.

First of all, you shouldn't let people you don't know into your home. You should always look through the peephole before you open the door. It's also a bad idea to leave money, jewelry, or keys next to windows. Always lock all doors and windows when you leave the house, and if possible, install a burglar alarm system and check it often to make sure it works properly.

Other ways to protect your home are to leave the radio on when you are away and put dusk-to-dawn lights in the garden. Then, anyone watching the house will think that someone is there.

Finally, never put up a fight with a burglar. Just hand over your valuables and then call the police. It's better to be safe than sorry.

e.g., Nowadays, burglaries happen very often.

LEONARDO DA VINCI - A GREAT ARTIST AND SCIENTIST

by Adam Wilson

The person I respect the most is Leonardo da Vinci. He was born on April 15th, 1452 in the town of Vinci, Italy. His full name was Leonardo di ser Piero da Vinci, which means Leonardo, son of Piero from Vinci. He was not only one of the greatest painters of all time, but he was also an architect, sculptor, engineer, inventor, mathematician, and musician.

Leonardo da Vinci was a very intelligent and imaginative man. He created many different designs. Some of them were for a bicycle, a helicopter, a parachute, and even an airplane! He also liked to study everything in nature. You can find some of his notebooks in museums today. In them, you can see drawings of plants and animals, as well as detailed sketches of the human body!

Leonardo da Vinci paid a lot of attention to detail and his paintings are very realistic. The Mona Lisa, for example, is one of his best known works of art. It is a painting of a woman whose face often makes people wonder if she is smiling or not.

I respect Leonardo da Vinci for his amazing works of art and his great inventions. His artwork will last forever.

e.g., Leonardo da Vinci was born in Venice, Italy.

PORTFOLIO ACTIVITIES**Suggested Answer**

Meet my robot Tommy 9. He looks like a human being and is dressed as a waiter. He is able to cook meals and make drinks. People who are not very good at cooking or just lazy will be very interested in Tommy 9. When they want to eat something they only need to tell him what they want, and then he will automatically go to the kitchen and make it for them. Tommy 9 is a very useful robot and in high demand, so he is quite expensive. He costs around \$50,000 to buy.

BE SAFE ON YOUR BIKE!

Cycling is a fun and healthy way to get around as long as you follow basic guidelines.

- Don't listen to music while you are riding a bike:
 If you are wearing headphones you won't be able to hear car horns or people shouting to warn you of danger.
- Always wear a helmet:
 Make sure you buy one that fits properly; it may just save your life if you happen to fall off your bike.
- Wear brightly colored clothes:
 If you wear bright colors, other road users will be able to see you, so you are less likely to have an accident.
- Use hand signals:
 Sensible bikers use hand signals when they want to turn corners, change lanes, or stop. This way, other road users know what direction you are going to go and can keep a safe distance away.

There are a lot of things you can do to prevent fires at home. You should start with fire safety in the kitchen as most fires start there.

First of all, you should not leave the kitchen when you are cooking food. It is also a good idea not to wear loose clothing, which can catch on fire easily, and never let children near the stove. Remember that if a frying pan catches on fire, you can't use water but only a cover. Keep a fire extinguisher in the kitchen and learn how to use it. Finally, keep the phone number of the fire department handy and even better, learn it by heart!

The person I admire most is Antonio Banderas. He is a famous movie star and he was born in Spain. He is one of the most well-known Spanish actors. He has played many different parts in many movies. He is quite tall, with dark hair and skin. He likes telling jokes and is a very sociable person. I admire him because he started his career in Spain in small roles, and now, he is the most talented Spanish actor in Hollywood.

In the past, the sea was home to many thousands of fish species and other marine life. Over the years, the number of fish species has been disappearing fast. Mostly to blame is acid rain, which poisons the water in the oceans.

Many types of fish are kept in aquariums. People say that fish can be protected in this way and their numbers will increase.

However, aquariums cannot replace the ocean and we should find ways to protect them in their natural habitat.

Everybody needs to work together to make this happen.
